starts.

SCOPE OF WORK

Quick Commerce Multi-Vendor Application

1. Project Overview

This Scope of Work outlines the complete development of a Quick Commerce Multi-Vendor Delivery Platform for Android, iOS, and Web.

The platform will enable customers to:

- Order groceries and daily essentials
- Browse products from multiple vendors
- Track orders in real-time
- Make secure online payments
- Receive fast doorstep delivery

The platform will include:

- Customer Mobile Application (Android & iOS)
- Delivery Partner Application (Android & iOS)
- Vendor Management Panel (Web)
- Master Admin Dashboard (Web)
- Customer Website

2. Technology Stack

Frontend

- React.js (Web)
- Flutter (Android & iOS)

Backend

- Node.js
- Express.js

Database

- MongoDB

Integrations

- Google Maps API
- Payment Gateway Integration
- Firebase Push Notifications
- OTP Verification API

SCOPE OF WORK

Quick Commerce Multi-Vendor Application

3. Customer Mobile Application

Authentication

- Mobile OTP Login & Registration
- User Profile Management
- Address Management
- Location Detection
- Multi-language Support

Shopping Features

- Product Browsing
- Category Management
- Product Search
- Filters
- Product Details
- Add to Cart
- Wishlist
- Multi-Vendor Ordering
- Quantity Management
- Checkout

Payments

- Online Payments
- Cash on Delivery
- Promo Codes
- Discounts
- Wallet Integration

Order Management

- Order Placement
- Real-Time Order Tracking
- Order History
- Order Status Updates
- Delivery Notifications

Customer Features

- Ratings & Reviews
- Customer Support
- Push Notifications

Quick Commerce Multi-Vendor Application

4. Delivery Partner Application

Delivery Features

- Driver Registration & Verification
- Online / Offline Availability
- Order Acceptance
- Order Management
- Google Maps Navigation
- Live Delivery Tracking
- OTP Delivery Confirmation
- Delivery Status Updates
- Delivery History

Earnings

- Earnings Dashboard
- Wallet Management
- COD Management

Communication

- Push Notifications
- In-App Notifications

5. Vendor Management Panel (Web)

Vendor Features

- Vendor Registration & Login
- Store Management
- Product Upload & Management
- Category Management
- Inventory Management
- Pricing Management
- Offers & Discounts
- Order Processing
- Delivery Tracking
- Reports & Analytics

Financial Features

- Commission Tracking
- Settlement Reports
- Payout Requests
- Sales Analytics

SCOPE OF WORK

Quick Commerce Multi-Vendor Application

6. Master Admin Dashboard

User Management

- Customer Management
- Vendor Management
- Delivery Partner Management
- User Roles & Permissions

Quick Commerce Management

- Product Categories
- Vendor Approvals
- Inventory Monitoring
- Subscription Control
- Order Monitoring
- Delivery Management

Financial Management

- Revenue Reports
- Commission Management
- Payout Management
- GST & Tax Reports
- Transaction Monitoring

Marketing & Promotions

- Banner Management
- Push Notifications
- Promo Codes
- Referral System
- Campaign Management

Reports & Analytics

- Order Reports
- Revenue Analytics
- Customer Insights
- Sales Reports

System Settings

- Service Area Management
- Payment Gateway Settings
- App Configuration

SCOPE OF WORK

Quick Commerce Multi-Vendor Application

7. Real-Time Features

- Live Delivery Tracking
- Real-Time Notifications
- Dynamic Order Assignment
- Socket-Based Live Updates

8. Payment System Integration

Supported Payment Methods:

- UPI
- Debit/Credit Cards
- Net Banking
- Wallet Payments
- Cash on Delivery
- In-App Wallet

Wallet Features

- Cashback
- Refund Management
- Customer Wallet
- Driver Wallet
- Vendor Wallet

9. Security Features

- OTP Authentication
- Secure APIs
- JWT Authentication
- Encrypted Data Handling

10. Notifications & Communication

- Push Notifications
- SMS Alerts
- Email Notifications
- Order Notifications
- Promotional Notifications

11. Optional Website Development

Responsive customer website with:

- Product Browsing
- Grocery Ordering
- Cart & Checkout
- Order Tracking
- Customer Support

SCOPE OF WORK

Quick Commerce Multi-Vendor Application

12. Project Timeline

Development Phases

1. Requirement Analysis
2. UI/UX Design
3. Backend Development
4. Mobile Application Development
5. Vendor Panel Development
6. Admin Panel Development
7. Testing & QA
8. Deployment & Launch

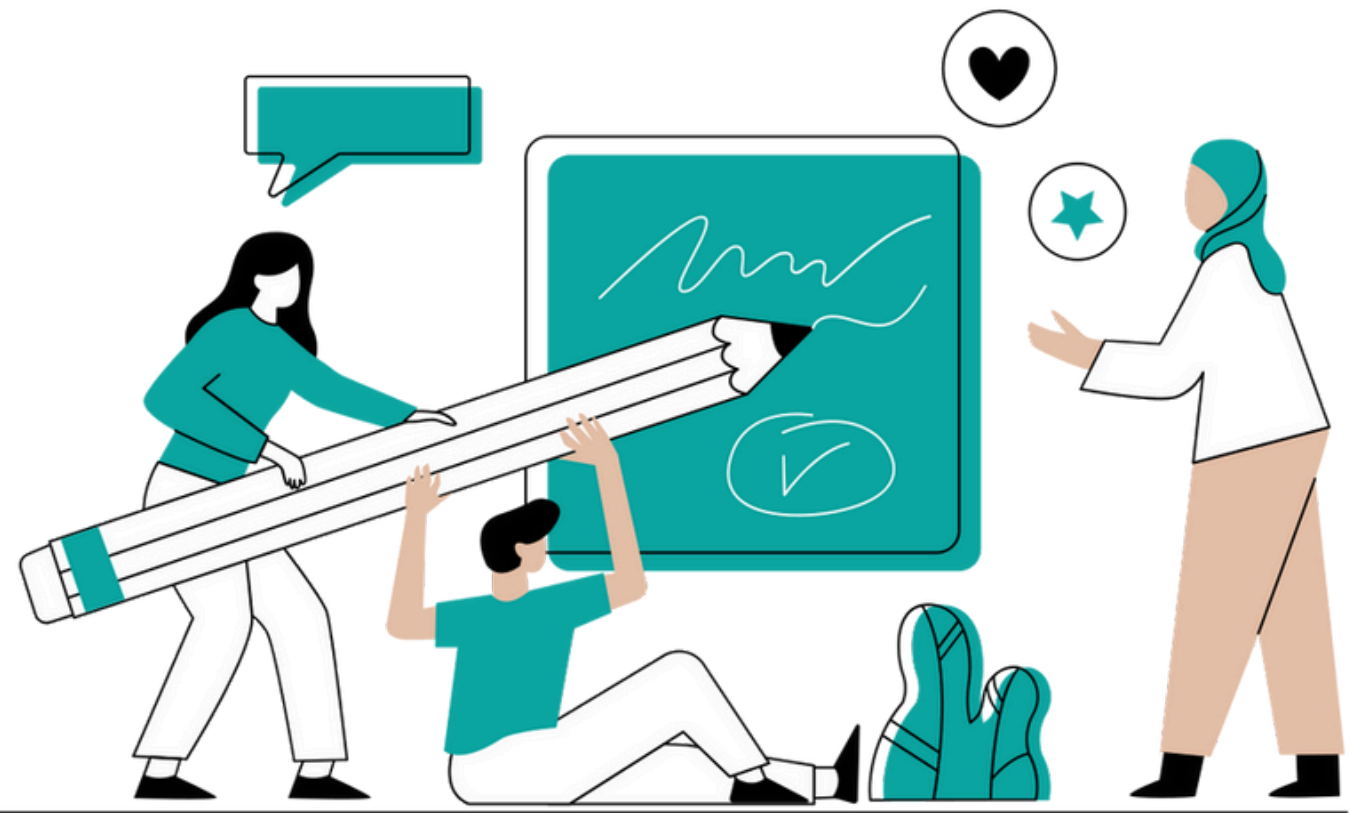

Estimated Timeline

45–60 Working Days

13. Deliverables

- Customer Mobile Application (Android & iOS)
- Delivery Partner Application (Android & iOS)
- Vendor Management Panel
- Master Admin Dashboard
- Backend APIs
- Database Setup
- Deployment Support
- Website

APPLICATION TIMELINE: A PLAN FOR SUCCESS

01

Project Inception :

- Define project goals, features, and scope.
- Conduct market research and competitor analysis.
- Assemble a cross-functional project team.

02

Design Phase :

- Create wireframes and design prototypes.
- Collaborate with UI/UX designers for a visually appealing interface.
- Finalize design mockups and seek approvals.

03

Development Sprint :

- Implement core functionalities with a modular architecture.
- Integrate secure payment gateways.
- Conduct regular code reviews and testing.

04

Testing and QA :

- Perform functional, performance, and security testing.
- Gather user feedback through beta testing. Optimize
- based on testing results and user input.

05

Deployment :

- Ensure infrastructure readiness for smooth deployment.
- Roll out the application in stages or to a limited audience.
- Monitor server performance and address issues.

06

Ongoing Support :

- Establish user support systems.
- Plan and implement regular updates.
- Monitor analytics for optimization and upgrades.
